

AUSTRALIA FOR UNHCR PITCH

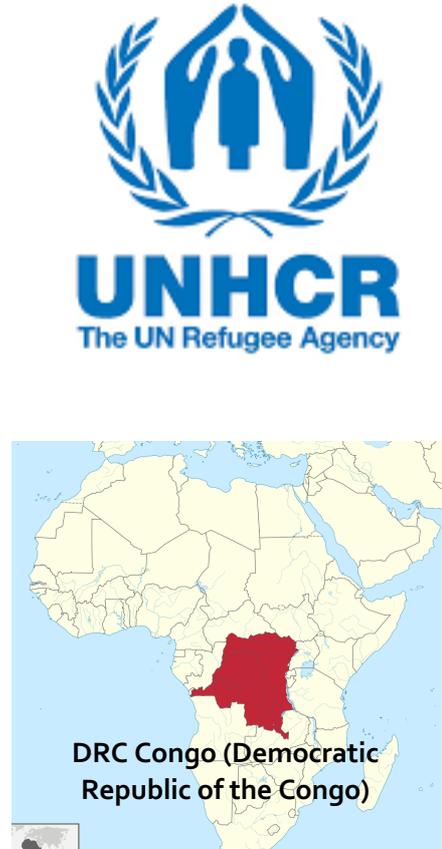

Hey, how are you?

Good! Thanks for stopping for me 😊

I'm here from the UNHCR 🇺🇳

That's the:

- United
- Nations
- High
- Commissioner
- (for) Refugees

We're the emergency team that goes around the world anytime there is a natural disaster, crisis, civil war.

Today we're here for the DCR or Congo.

This country has been dealing with a civil war for over 20 years, but a real problem is that every day over 1000 women and girls are sexual assaulted.

Many of these women fall pregnant and are giving birth in extremely unhygienic ways, and we're losing innocent children due to infections.

We can fix that with these birthing kits!

Each kit has

- Soap

- A sheet for mom to lay on
- A razor blade to cut the umbilical cord
- A cloth to wrap the baby
- Gloves

What do you think one kit costs?

JUST \$0.22!!!

That's why we pulled you over to help us send boxes of these on a regular basis to people like the women in Congo.

We have 5 different boxes,

- \$100
- \$50
- \$40
- \$35
- \$25

The most popular is \$35.

You just tell me how many you would like to send and your first and last name to get you started! 😊

Remember we want you to give monthly, so your first donation is today, and then each month we will send another box with your contribution to make sure these people get as much support as possible, because a refugee will stay in a camp for an average of 8 years :(.

So, what's your first name? 😊
